The Architect/Engineer shall not be responsible for the accuracy of any information shown or indicated in the construction documents received from others. The Architect/Engineer shall not be responsible for the means, methods, techniques, sequences or procedures of construction, safety precautions and programs incident thereto, or for any failure of a contractor to carry out the work in accordance with the contract documents. The Architect/Engineer makes no representation regarding the suitability of the work for any purpose not specified in the contract documents. The Architect/Engineer shall not be responsible for any deviations from the contract documents, specifications or codes committed by the contractor or any subcontractor. The Architect/Engineer shall not be responsible for the acts or omissions of the contractor, subcontractors, or any of their agents or employees. The Architect/Engineer shall not be responsible for the failure of any contractor to perform the work in accordance with the contract documents. The Architect/Engineer shall not be responsible for the failure of any contractor to pay for any labor or materials furnished for the project. The Architect/Engineer shall not be responsible for the failure of any contractor to maintain the progress of the work, to meet any specified completion dates, to complete the work, or to do any other act required by the contract documents. The Architect/Engineer shall not be responsible for the failure of any contractor to supervise and direct the work of its employees and agents. The Architect/Engineer shall not be responsible for any defect in the work of any contractor. The Architect/Engineer shall not be responsible for the failure of any contractor to comply with any laws, statutes, ordinances, regulations, or lawful orders of any public authority bearing on the performance of the work in accordance with the contract documents. The Architect/Engineer shall not be responsible for the failure of any contractor to furnish and install the work in accordance with the contract documents. The Architect/Engineer shall not be responsible for the failure of any contractor to properly take measurements and to direct the right of way of its employees and agents in the performance of their work. The Architect/Engineer shall not be responsible for the failure of any contractor to install any materials in accordance with the manufacturer's specifications and instructions. The Architect/Engineer shall not be responsible for the failure of any contractor to properly place and anchor any equipment or materials furnished by others. The Architect/Engineer shall not be responsible for the failure of any contractor to furnish and install any materials or equipment owned by the owner. The Architect/Engineer shall not be responsible for the failure of any contractor to furnish and install any materials or equipment specified by the owner. The Architect/Engineer shall not be responsible for the failure of any contractor to furnish and install any materials or equipment specified by the owner. The Architect/Engineer shall not be responsible for the failure of any contractor to furnish and install any materials or equipment specified by the owner.
