RE: Proposal for Engineering Services for  
Bens Ford Baptist Church  
Bogalusa, Louisiana

Dear Pastor Martin,

It was a pleasure to meet with you and discuss your new project. Dammon Engineering, Inc. is pleased to propose our Engineering services to design a new Fellowship Building, as depicted on the drawings sent to me by email. We have reduced our usual fee because of the availability of these basic drawings. I understand that you will also send me a copy of the drawings for your previous Fellowship Building that our firm designed for you approximately ten years ago.

We propose to design the 19,200 s.f. facility to meet the new International Code as required by the State of Louisiana, with connections to your existing Fellowship Hall for the total sum of \$25,000.00 (Twenty Five Thousand Dollars).

The above fee includes five sets of plans provided to you following Parish and Fire Marshal approval. The fee also includes the Fire Marshal application fee, but does not include cost of soils analysis (if required) or other government agency fees. This fee also does not include the cost of traffic, or other engineering studies, which may be required by authorities having jurisdiction.

Dammon Engineering carries \$1,000,000 Professional/General Liability Insurance, Auto Insurance and Workmen's Compensation Insurance. Unless this offer is previously accepted, it will expire 30 days from the date of issue.

Please indicate your acceptance of the above by signing below. We look forward to working with you on this project. If you have any questions, or require any further information, please feel free to call.

Sincerely,

  
Emmett G. (Pete) Dammon, P.E.

Accepted:   
Rev. Lynn Martin
