RE: Proposal for Engineering Services for  
10,000 s.f. Building located on  
Robert Blvd., Slidell, Louisiana

Dear Mr. Kimball,

It was a pleasure to meet with you and discuss your new project. Dammon Engineering, Inc. is pleased to propose our Engineering services to design a new Followship/Classroom and Gym Building, loosely depicted on the drawings provided to me when you visited our office.

We propose to design the 10,000 s.f. facility to meet the new International Code as required by the State of Louisiana and the City of Slidell, for the total sum of \$20,000.00 (Twenty Thousand Dollars).

The above fee includes five sets of plans provided to you following City and Fire Marshal approval. The fee also includes the Fire Marshal application fee, but does not include cost of soils analysis (if required) or other government agency fees. This fee also does not include the cost of traffic, or other engineering studies, which may be required by authorities having jurisdiction.

Dammon Engineering carries \$1,000,000 Professional/General Liability Insurance, Auto Insurance and Workmen's Compensation Insurance. Unless this offer is previously accepted, it will expire 30 days from the date of issue.

We look forward to working with you on this important project. Please indicate your acceptance of the above by signing below. If you have any questions, or require any further information, please feel free to call.

Sincerely,

  
Emmett G. (Pete) Dammon, P.E.
