

**CAMP VILLERE  
NEW HOME CONSTRUCTION  
State Project: LA14-A-037  
Engineer's Project: 2210  
Bi-Weekly Construction Meeting Minutes**

June 20, 2017  
9:00 a.m.

Attendees:

James Downing, LANG - Operations  
Gerald J. Leonick, Camp Villere  
Jason Cox, Grillot Construction  
Dustin Hitt, Grillot Construction  
David Dammon, Dammon Engineering, Inc

**Minutes:**

- Grillot Construction has been probing for a water line that runs to the slab behind the new house and has not found it. Connecting to this 2" line would be preferred over connecting to the line under the street.
- The sewer force main appears to be 6 to 12 inches below grade. In order to bury the force main from the house at a proper depth the line would run deep then turn up to meet the force main.
- All of the ruff in inspections have been completed.
- The Change Order for the additional sidewalk is being processed.
- The interior trim was selected see attached cutsheet.
- The next scheduled meeting was 7/4/2017 however since this is a holiday it has been rescheduled for 7/11/2017 at 9 am (0900).
