RE: Building Layout/Building Elevation
Assisted Living Center
Harden Road

Dear Mr. Lenczewski,

It was a pleasure to meet with you again to discuss the progress you've made on your project to build a new assisted living center. As discussed, Dammon Engineering, Inc. will provide our Engineering services to design the *building layouts and building elevations only*, which are necessary for you to obtain bank approval.

We propose a total fee of \$2,500.00 (Two Thousand Five Hundred Dollars) for this work. This fee includes five sets of plans provided to you following design completion. This fee does not include cost of soils analysis (if required) or other government agency fees. This fee also does not include the cost of traffic, or other engineering studies, which may be required by St. Tammany Parish. If selected, the balance will be due in full following design completion.

Dammon Engineering carries \$1,000,000 Professional/General Liability Insurance, Auto Insurance and Workmen's Compensation Insurance. Unless this offer is previously accepted, it will be withdrawn automatically at 5:00 p.m., 30 days from the date of issue.

We look forward to working with you on this project. Please indicate your acceptance of the above by signing below. If you have any questions, or require any further information, please feel free to call.

Sincerely,

Emmett G. (Pete) Dammon, P.E.
