RE: 3 New Hoists

It was a pleasure to meet and discuss with you concerning your 3 new hoists.

We will provide a design for 3 separate new hoists as discussed today.

We propose a fee based on our hourly rate. We anticipate this project could take 35 hours of engineering design at a rate of \$145/hr and 20 hours of drafting at a rate of \$85/hr. $(35 \text{ hours} \times \$145/\text{hr}) + (20 \text{ hours} \times \$85/\text{hr}) = \$6,775.00$ If however, it takes less time to complete this project we will invoice only for those hours required to produce the drawings. If selected will not invoice for more than \$6,775.00 to complete this project. This estimate covers only the structural requirements for 3 hoist, if other disciplines, i.e. electrical, we will provide you with a new estimate on that discipline.

We will invoice @ 100% design completion.

Unless this offer is previously accepted, it will be withdrawn automatically at 5:00 p.m., 30 days from the date of issue.

We look forward to working with you on this project. Please indicate your acceptance of the above agreement by signing below. By signing below you acknowledge that you are duly authorized to enter into and execute contracts/agreements on behalf of "Advanced Sinter Metal Technologies, Inc."

If you have any questions, or require any further information, please feel free to call.

Sincerely,

David Dammon, President
