RE: P0323567
TEXTRON INC TEMPORARY TRAILER
2865 FRONT ST
SLIDELL, LA 70458

NFPA 101, 2003

BUSINESS

Dear Applicant:

Additional information is required to perform a proper review. The project referenced above is being held pending submission of the following information:

1. The only trailers that the Office of the State Fire Marshal considers as temporary are temporary construction site trailers used by construction staff. The fee for such a review is \$20.

All other trailers get a full NFPA 101 Life Safety Code review, and the minimum fee is \$55. (You sent \$20.)

Slidell has contracted with the Office of the State Fire Marshal for this office to review for compliance with the State Uniform Construction Code. The fee for this is \$280.

Total balance due for PO323567 is \$315. Please remit within 5 days.

2. In order to do the construction code review we will need the following information:

Occupancy type--such as business--and Group within type, according to IBC.

Construction Type and building limitations, according to IBC.

Height & area limitations of proposed construction, according to IBC Table 503.

Verification that the trailer can sustain expected dead and live loads. All applicable loads must be indicated on the documents.

Determination of what wind loads the trailer must sustain, and that it will do so. Also, the trailer will likely need to be "tied down". Identify the continuous load path.

referred
see PO 328375

Identify the Flood hazard area for the site and identify the Flood Zone. Provide required elevation of trailer's finished floor.

Verification that the mechanical system complies with 2006 International Mechanical Code.

Verification that the electrical system complies with the 2005 National Electric Code.

3. **NOTE:** Please enclose a copy of this letter with future submittals or other correspondence pertaining to this project.

Due to the lack of information, the referenced project has NOT been reviewed. Please direct the requested information to my attention. Processing will continue upon receipt of the information requested above. Enclose a copy of this letter with future submittals and/or other correspondence pertaining to this project.

This project will be returned as "NOT IN COMPLIANCE" if the requested information is not received by this office within 21 days of the date of this letter, thereby requiring a RESUBMITTAL of the entire project along with a new completed application and appropriate review fee.

If a sprinkler system construction release (Go-To-Work-Request) was granted prior to formal review, the release is hereby rescinded until such time that a formal review of plans has been conducted and a plan review letter is issued that will release the project for construction.

CONSTRUCTION IS NOT AUTHORIZED until a satisfactory review has been performed and a formal review letter has been issued by this office.
