David

Where do we stand on this permit?

Thx

Subject: Quiznos 11466 Fire Marshal Drawings
Importance: High

Sheryl,

Hi, my name is David Dammon with Dammon Engineering. We designed your Quiznos and submitted the drawings to the Louisiana State Fire Marshal for their review. They should have returned the drawings to us until your project is ready to be constructed. We contacted the State Fire Marshal and they stated that they mailed the drawings to you at 31391 Dunn Rd. Denham Springs.

These drawings must be presented by your contractor to the local Fire Marshal inspector. If these drawings are lost you will not be allowed to open.

Please let me know that you have received them and if you want to keep them until a contractor is selected.

Thank You

David Dammon
