Dear Mr. Borskey,

Plans and Specifications for the above named project have been reviewed and found to be in substantial conformity with applicable provisions of the State Sanitary Code. This plan approval refers to sanitary features of the design of the floor plan only, and it is not to be taken as an approval of structural details, except insofar as they may affect sanitation.

If a design error escapes our detection, that oversight shall not relieve you of the responsibility of complete compliance with the requirements of the State Sanitary Code.

This plan approval is automatically cancelled if construction of the project has not been started within two (2) years after the date of this letter.

Please feel free to call me at 225-242-4918 to schedule a day and time for a pre-opening inspection and permitting for the above referenced project. The owner or a corporate member must be available to sign the permit application between 9:00AM-3:00PM on the date specified.

Sincerely,
Heather L. Gray #1422
