Re: Letter of No Objection Regarding Work on State Owned Water Bottoms

CUP Number: P20220535

Applicant: Thomas Porter Trimble

Location: 100 Mulberry Ave. Mandeville, LA

To Whom It May Concern:

We have reviewed your application for a permit to reclaim land to install a boardwalk, covered deck, boathouse, and pier on state water bottoms in Lake Pontchartrain. We have found that your project complies with the guidelines set forth in the Local Coastal Program of St. Tammany Parish. Provided the work is carried out in accordance with the attached plans that were submitted with your Coastal Use Permit application, this office will offer no objection to your proposal.

Please note that it is the responsibility of the applicant to secure all necessary federal, state, and local approvals. At a minimum, additional local requirements will include a local building permit for the boathouse/covered deck. The application and drawings for the local building permit must be consistent with the attached CUP drawings.

Sincerely,

Sabrina Schenk
