St. Tammany Fire Protection District #1
1358 Corporate Square
Slidell, LA 70458

RE: Fire Station #18
Dammon Engineering, Inc. Disclosure

Dear Chief Kaufmann,

At the recent bid opening for Fire Station #18, McMath Construction was found to be the low bidder. It is our utmost desire to be fair, honest and forthcoming with all of our clients. As such, and in the spirit of full disclosure, we're writing to inform you that Dammon Engineering has a past and current relationship with McMath Construction and its owner Mr. Don McMath.

While it's not uncommon for A&E firms to have past relationships with local bidders, due to our current work with McMath, we thought it would be prudent of us to notify you of what some may consider a potential conflict of interest. However, we can assure you that our past and present dealings with McMath Construction will not in any way affect or influence our performance during the upcoming construction of Fire Station #18. We take our responsibility to act in the best interest of our clients very seriously and you can rest assured that Dammon Engineering will proceed, as always, with the Fire District's best interests in mind.

If you have any questions or concerns, please feel free to call us anytime.

Sincerely,

David Dammon, VP
Dammon Engineering, Inc.
