**RE: PRTN No: 10-1750 General Hospital:**  
Slidell Memorial Hospital  
Pharmacy Compounding Area  
1001 Gause Boulevard  
Slidell, LA 70458-2987

Dear Mr. Dammon,

The plan review for the above referenced project is recommended for tentative approval pending acceptance of noted comments and final on-site inspection by the DHH Division of Health Standards. This letter and written approval from both the State Fire Marshal and Louisiana Board of Pharmacy will be required by the Division of Health Standards to begin your application process for licensure prior to DHH-HS on-site inspection.

General Hospital Projects shall comply with the following:

1. 2010 FGI Guidelines for Design and Construction of Health Care Facilities, Chapters 2.1, 2.2 and/or any other applicable chapters,
2. State of Louisiana Revised Minimum Licensing Standards, Chapter 93, Hospitals and
3. The Louisiana State Plumbing Code, 2000 Edition.

It shall be the Owner's responsibility to maintain the attached red stamped approved drawing(s). The red stamped approved drawing(s), along with a readable 11 x 17 minimum copy, and a PDF file of all related FLOOR plans must be returned to Health Standards as part of the Facility's DHH licensing application. If the red stamped drawing(s) are not returned, a complete plan review re-submittal and fee will be required.

In the event that it is determined at some point in the future that a design error escaped our detection during our review of these plans, that oversight shall not relieve the facility from the responsibility of complete compliance with the requirements of the reference materials listed above.

Sincerely,

Felicia S. Langlois  
DHH Plan Review
