PROVIDE THE Unistrut Framing System for the Vendors Medical Equipment as per the complete set of drawings and specifications dated October 16, 2012, Addendum No. 1 dated November 1, 2012, Addendum No. 2 dated November 8, 2012 and Addendum No. 3 dated November 15, 2012 prepared by Sizeler Thompson Brown Architects Healthcare Design Group, LLC, and more specifically, Note 28 on Sheet S200, dated October 31, 2012, provided with Addendum 1, which states, "The vendors design requirements must be strictly followed". Per this same note, Dammon will submit Louisiana sealed Unistrut drawings showing all materials, members and connections to be used. Louisiana engineered sealed calculations of Unistrut design shall be submitted concurrent with the shop drawings. Other sheets Dammon will refer to will be S100, dated October 31, 2012, issued with Addendum 1 and Siemens drawings S-102. Dammon will take into account the material M Natal Contractor, Inc. has on hand, from the existing system that was taken down, to be used in the designed Unistrut system, if at all possible. Dammon will have all of the above complete and delivered to M Natal Contractor, Inc. by the morning of Monday March 18, 2013.
