RE: Sidewalk Repair and Extension

Dear Mr. Dammon:

The City of Slidell selection committee and City Administration have selected your firm to provide engineering design and inspection services for our Phase 1 Sidewalk Repair and Improvement Program within the District A Lincoln Park area. We will use federal CDBG funds to pay for these improvements and have outlined the areas in greatest need for repair work and/or sidewalk extensions. At this time, we must negotiate any professional fees, which the City must find to be cost reasonable, and will need a draft professional services agreement provided to our office. As soon as you are able to provide these items to us for review, we will be able to meet on any details and get started with the design and bid process. The proposed fee and fee schedule, along with the draft contract, should be forwarded to Marina Stevens at the City Planning Department at 1330 Bayou Lane (Trailer 107) in Slidell or mailed to the attention of the CDBG Coordinator at the Planning Department, P.O. Box 828, Slidell, La. 70459.

Sincerely;

Marina C. Stevens
Assistant Planning Director
