RE: Sidewalk and Drainage
Cleveland Ave., Second Street
Slidell, Louisiana

Dear Ms. Ingram-Hunter,

It was a pleasure to speak with you and discuss the City's plans for adding new sidewalks and improved drainage at the referenced locations. Dammon Engineering is pleased to propose our engineering services for this work.

Our design will include plans for all work necessary for the installation of new sidewalks and improved drainage.

We propose a total design fee of 8% of the Construction Cost, which is estimated to be \$165,000.00. Our fee will be billed according to the following schedule:

PHASE	BASIS	NOT TO EXCEED AMOUNT
Preliminary Design	10%	\$1,320.00
Schematic Design	15%	\$1,980.00
Construction Documents	35%	\$4,620.00
Bidding and Contracts	5%	\$660.00
Construction Administration	15%	\$1,980.00
Inspection	20%	\$ 2,640.00
Survey Work	LUMP SUM + 10%	\$5,225.00
TOTAL LUMP SUM FEE		\$18,425.00

The above fee *does not* include the cost of soils analysis, drainage studies, wetlands determination, permit fee or the cost of other engineering studies that may be required by government agencies.

We appreciate the opportunity to propose our services and we look forward to working with you on this project. If you have any questions, or require any further information, please feel free to call.

Sincerely,

Chuck Dammon, VP
Dammon Engineering, Inc.
