

Technical Specifications

SECTION 501

ASPHALTIC CONCRETE PAVEMENT (TYPE 3)

501.01 DESCRIPTION

This work consists of furnishing and constructing one or more courses of asphaltic concrete mixture applied hot in conformity with the lines, grades, thicknesses and typical sections shown on the plans.

All mixtures shall be performed in accordance with Section 501 of the Louisiana Standard Specifications for Roads and Bridges, 2000 Edition (Red Book), and latest revisions, except as otherwise noted in these specifications.

501.02 MATERIALS

The asphaltic concrete wearing course material shall be "Type 3" in accordance with Section 501.02 of the "Red Book."

The asphaltic concrete binder course material (if used) shall be "Type 3" in accordance with Section 501.02 of the "Red Book."

The asphaltic concrete leveling course material shall be "Type 3" in accordance with Section 501.02 of the "Red Book."

The asphalt tack coat shall be in accordance with the requirements of Section 504.02 of the Louisiana Standard Specifications for Roads and Bridges, 2006 Edition, (Blue Book).

The asphalt prime coat shall be in accordance with the requirements of Section 505.02 of the "Blue Book".

501.03 DESIGN AND QUALITY CONTROL

Design and quality control shall be in accordance with Section 501.03 of the "Red Book" except City of Slidell will hire an independent testing lab to monitor plant and field operations.

501.04 MEASUREMENT AND PAYMENT

Measurement for asphaltic concrete wearing, leveling, and binder course (Type 3) shall be made by the ton.

No measure or payment shall be made for the asphalt prime and tack coats.

Payment will include all material, equipment, and labor necessary to perform the work and will be made at the contract unit price bid for the pay items shown below:
