Mandeville, Louisiana 70471

Re:
Mr. Leon Cook
62251 Fish Hatchery Rd Lacombe
Phone: 985-882-4437

Dear Mr. Wortmann

Mr. Cook requested that Dammon Engineering inspect the concrete foundation located at the referenced location. Mr. Cook has documentation and records indicating the types of materials used in the construction of the concrete foundation. He requested that we provide you with the following affidavit.

It is my professional opinion that the foundation was designed and constructed to meet the requirements of the 2012 IRC, and is structurally sufficient for the use intended. The slab is being used to support a metal building barn.

The inspection was performed by me and this report is true and correct to the best of my knowledge and belief. This report shall serve as my affidavit that the foundation was erected according to provisions of Chapter 4 of the International Residential Code, 2012. I hereby assume full responsibility for the compliance with all provisions of the technical code for foundations and all other pertinent laws and ordinances, as pertains to the foundation of the structure.

This report does not cover any other aspects of the building such as framing, plumbing, electrical, gas, mechanical egress, general arrangement, site drainage, etc., and assumes that ground conditions are substantially the same as is under the residence.

Sincerely,

Brian Mistich, P.E.
