Piling repair design

Dear Mr. Jamon

It was a pleasure to discuss with your project at the Anchorage Condos. Dammon Engineering, Inc. is pleased to propose our services to design a piling wrap to pass State and local codes.

We will provide a design package, including one drawing for the repair of the rotten pilings by means of wrapping them in with steel and concrete.

We propose a total fee of \$1,200.00 (One Thousand Two Hundred Dollars) including three sets of plans provided to you following design completion, along with pdf's of the drawing.

This fee does not include cost of soils analysis, Fire Alarm, Sprinkler Systems or other government agency fees. This fee also does not include the cost of the landscaping plan, survey/topo, drainage plan of the site, traffic study, or other engineering studies, which may be required. This fee also does not include any Construction Management.

Unless this offer is previously accepted, it will be withdrawn automatically at 5:00 p.m., 30 days from the date of issue.

We look forward to working with you on this project. Please indicate your acceptance of the above by signing below. If you have any questions, or require any further information, please feel free to call.

Sincerely,

*Chuck Dammon*

Chuck Dammon, Vice President
