RE: Residential Renovation

Dear Mr. & Mrs. Willis,

It was a pleasure to speak with you and discuss plans for the renovation of your residence. Dammon Engineering is pleased to propose our architect and engineering services for renovation of your approximately 3,300 s.f. residence.

We propose to furnish the design for the New Exterior Elevations Plans, New Roof Plan, and New Floor Plan for \$2.50/s.f., or \$8,250.00 (Eight Thousand Two Hundred Fifty Dollars). Please note that our fee will adjust in consonance with determination of the final square footage, including covered porches and decks.

Please note that our fee includes five sets of plans provided to you following design completion.

The above fee *does not* include the cost of soils analysis, drainage studies, wetlands determination, or other engineering studies that may be required by government agencies.

If selected, we require a deposit of \$1,250.00 upon contract acceptance. We then propose to invoice for \$4,000.00 at 50% design completion, with the balance due following design completion.

Dammon Engineering carries \$1,000,000. Professional/General Liability Insurance and Workmen's Compensation Insurance.

We appreciate the opportunity to propose our services for this project. Please indicate your acceptance of the above, by signing below. If you have any questions, or require any further information, please feel free to call.

Sincerely,

Chuck Dammon, VP
Dammon Engineering, Inc.
