200 W. Gloria Smith Road
Carcro, La

Dear Mr. Chavez,

Dammon Engineering, Inc. is pleased to propose our services to re-design the parking area drainage per your layout for approval from City of Carencro.

We will provide a drainage design package, with a Hydrology Study, along with site utility services, drainage analysis, construction plans and construction specifications.

We propose a total fee of \$5,000.00 (Five Thousand Dollars). This fee does not include cost of soils analysis or other government agency fees. This fee also does not include the cost of a survey/topo of the site, traffic study, Fire Alarm, Sprinkler or other engineering studies, which may be required. This fee does not include any town hall meetings, if needed it will be billed at an hourly rate.

We require a deposit of \$1000.00 and will bill at 50% design review, 100% design for the balance following approval from Carencro.

Unless this offer is previously accepted, it will be withdrawn automatically at 5:00 p.m., 30 days from the date of issue.

We look forward to working with you on this project. Please indicate your acceptance of the above by signing below. If you have any questions, or require any further information, please feel free to call.

Sincerely,

David Dammon, President
