RE: Project #B-200619527
Location: 17002 Jefferson Hwy., Suite C
Interior Renovation – Quiznos #11466

Dear Mr. Williams,

The occupancy has been revised from A-2 (less than 50 occupants) to B with non-separated use. Our drawings have been revised to reduce the fire rating for demising walls from 2-hour to 1-hour separation. Please find attached a revised plan showing a 1-hour separation.

Sincerely,

David Dammon
Project Manager
