**Subject:** RE: CDCAI EHS Renovations - Update

January 28, 2010

We have received the quotes submitted for the work to be done at each of the centers. There are five centers that need the work to be done and five classrooms to be made ready for Early Head Start.

We accept the prices quoted and ask that the work begin as soon as possible.

We will be having our three year federal review which is scheduled for Monday, January 25 through Friday, January 29, 2010. Tentatively they have not scheduled visits to Lebeau, Melville or Krotz Springs; therefore, work could possible begin in those centers as soon as you can schedule it.

Barbara,

Attached, please find Habetz's quote for the EHS Classroom Renovations. Please note that this is the price per each classroom. Mr. Ed is ready to start, and you could contact him directly if all is acceptable. I will be out of the office tomorrow, but will check in case there are any questions.
