## KOROSEAL® LETTER OF CERTIFICATION

The KOROSEAL® Wallcovering items listed below on RJF Invoice Number 1785097 dated 2/27/03 meet Federal Specification CCC-W-408A for the type of materials shown below. These materials were formulated and produced using ingredients, proportions, and procedures equivalent to those used in producing material which was tested according to ASTM E-84 and found to have results as listed below when applied with KOROSEAL® A-848B adhesive to inorganic reinforced cement board.

These materials are labeled under the Underwriters Laboratories Classification and Follow-Up Service for wallcovering and are listed, as the Types shown below, in the January, 1997 U.L. Building Materials Directory under listing No. R4616(N), page 117. The classification marking on the packages includes the proper Fire Hazard Classification and shall be the only evidence that this material has been produced under Follow-Up Service.

This material contains the EARLY WARNING EFFECT® fire protection.
