

IMPORTANT:

In facilities subject to freezing conditions, it is the owner's responsibility to provide heat throughout the pipe service system areas and to ensure for proper pipe protection. The use of valves controlling flow of water to the system is not a means of preventing damage to pipe systems.

The design and the information and design application herein contained is the property of American Pipeline Company, Inc. and is loaned from the express condition that the same be used only for the project and site all of which shall be treated as secret and confidential to reproduction of the drawing or any part thereof shall be aside without the written consent of APCO.
