

KR-98, KR-99 And KR-100 Knife Racks

For operators concerned about sanitary knife storage, Edlund's KR-98, KR-99 and KR-100 are NSF certified. These knife racks feature a computer designed thermoplastic insert with 33% more knife holding capacity than previous models and a redesigned slot configuration that allows storage of knives with wider blades.

Sanitary removable insert is dishwasher safe

Thermoplastic insert won't dull knives

33% more holding capacity than similar knife racks

Computer designed - holds up to 5 wide chef knives plus cleaver

NSF certified components

Stainless steel skirt is corrosion resistant

KR-100 has stainless steel back for increased sanitation

Knife Racks on the cutting edge of knife sanitation and protection.

The KR-98 knife rack provides a system of knife storage and retrieval while helping to maintain a sanitary environment. Open underbase allows operators to quickly select the proper knife.

Front view of the KR-99 and KR-100 (14"/35.6 cm longer skirt) with a stainless steel skirt that protects knives and operators from accidents.

Back view of the KR-99 and KR-100 shows differentiation of the KR-100's stainless steel back for increased sanitation.

KR-98, KR-99 and KR-100 Knife Racks – NSF Certified

The most advanced knife rack system in the world. Edlund's KR-98, KR-99 and KR-100 Knife Racks meet today's knife storage needs with maximum efficiency and sanitation. Keeps wider knife selection within easy reach. The 1" thick high impact insert holds knives more rigid, yet removes for easy cleaning. The insert is also FDA certified.
