RE: Apartment Complex  
Tyler, TX

Dear Mark,

In accord with the information you have given to me via telephone and email communications, we make the following proposal:

1. We will provide modifications to the base plans and information that is to be provided to us for electrical, mechanical and plumbing services for your project in Tyler, Texas, and make new originals for the referenced project with proper title blocks, etc.
2. We understand that the clubhouse plan may be mirrored and our drawings will be revised to reflect this if necessary.
3. We understand that the plans are to be largely similar to the Island Park and/or Grand Pointe plans, but that the offset in the building is different.
4. We understand that one plan indicates that the 3 bedroom end-units are replaced by 2 bedroom units.
5. We also understand that there have been procedural changes, which will need to be considered and implemented on the new plans and that minor updates to the specs will be necessary.
6. Once complete, we will furnish reproducible copies to you or to Stephen Hill.

Based on the above information, we propose to accomplish this design task for the total fee of \$21,500.00. If we have possession of the plans by Monday, September 18, 2006, we will work to have final drawings ready no later than the end of November.

Please indicate your acceptance of the above by signing below. If you have any questions, or require any further information, please feel free to call.

Sincerely,

Emmett G. (Pete) Dammon, P.E.
