RE: Beulah Land Baptist Church
2436 St. Maurice Ave
New Orleans, LA

Dear Michael,

Dammon Engineering, Inc. is please to provide Design Contractors with our proposal to provide Engineering services to complete the Beulah Land project.

We will take over as POR for this project, notify the prior Professional of Record, and complete a site plan, landscaping plan, roofing plan, and strapping plan as well as review the existing drawings for any other required changes for a fee of \$5,000.00. If our services are requested to engineer a foundation with piling plan, our fee will be an additional \$2,000.00, for a total fee of \$7,000.00 (Seven Thousand Dollars).

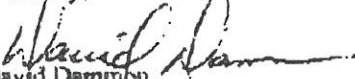

Our fee includes five sets of completed plans provided to you following the Fire Marshal's review and response; it also includes the Fire Marshal review fee. Our fee *does not include* the cost of parish permit fees, traffic study, soils analysis, survey, topo, or any other government agency or engineering fees.

If selected, we require a deposit of \$2,500.00 to begin work on the project. The balance would then be due following design completion

Dammon Engineering carries \$1,000,000 Professional/General Liability Insurance, Auto Insurance and Workmen's Compensation Insurance.

We look forward to working with you on this project. Please indicate your acceptance of the above by signing below. If you have any questions, or require any further information, please feel free to call.

Sincerely,

David Dammon
Project Manager
