Dear Mr. Callahan,

Dammon Engineering, Inc. is pleased to propose our services to design the following. We will provide a design package, including Site Plan, Conventional Foundation plan, Floor plans, Exterior building Elevations, Mechanical plan, Electrical Plan, Plumbing Plan ready for permitting. This will be a pre engineered metal building by others that we will work off of to prepare a complete design package.

This building will be approximately 11,904 Sq. Ft. We propose a design fee of \$18,500.00 (Eighteen thousand five hundred dollars) for this work.

Our fee includes three sets of plans provided to you following the Fire Marshal's review and response, as well as the Louisiana State Fire Marshal Review Fee.

Our fee *does not include* the cost of, soils analysis, survey, post tension foundation, drainage or paving plan, landscaping plan, wetlands determination, or other engineering studies that may be required by government agencies. Our fee also *does not include* design of the sprinkler or fire alarm systems. These items, if provided by Dammon Engineering, will be billed at a "cost plus 10 %" fee.

If selected, we will invoice \$5,000.00 at start up. Our remaining fee of \$13,500.00 will be invoiced after fire marshal review and approval.

We look forward to working with you on this project. Please indicate your acceptance of the above by signing below. If you have any questions, or require any further information, please feel free to call.

Sincerely,

Chuck Dammon
