**You are bidding on a New in the Box Elicent AXC 125A, the best 5" 159 CFM in-line fan money can buy, the professionals".**

Don't be fooled by others the Elicent AXC 100B is the quietest and strongest 5" inline centrifugal exhaust fan you can find. Even being rated @ 159CFM this fan will Fan, Provent or Hurricane).

This fan comes with the mounting bracket.

***This model is the quietest Inline duct booster only 36dBA!!!!***

Continental AXC in-line centrifugal duct fans are the ideal air movers for residential, commercial, and industrial applications. The quiet and efficient airfoil impeller is cap in-line configuration simplifies installation. The unique motor design, combined with high-quality materials and workmanship, results in a truly versatile fan.

**Design Features**

- AXC fan speed is infinitely variable to the max R.P.M. with the addition of a solid-state speed control.
- AXC fans are capable of handling air up to 60C/140F, and are suitable for dust and fumes.
- AXC fans are simple to install.
- AXC fans are designed to be maintenance free for most applications, and will provide many years of service.
- AXC fans are designed to handle long duct runs.
- AXC fans have automatic reset, thermal overload protection.
- AXC fans attach easily to attic joists and use the exclusive Continental mounting bracket.
- AXC exhaust capacities are two to four times greater than typical, in-ceiling exhaust fans.

**Construction Features**

- Heavy-gauge, spun-steel housing with baked epoxy finish inside and outside for superior corrosion protection!!!!
- Backward curved airfoil blades which greatly reduce operating noise levels, develop ample static pressure, and will not stall and overload the motor at low airflow. The w particulate dust.
- Durable external rotor motor has a stationary shaft while the motor housing rotates. This feature results in improved motor cooling and extends the fan's temperature ca
- Ball bearing motors are perminatly lubricated for maintenance-free operation.
