RE: Renovation and storm repairs to office building

Dear Mr. Butler,

You recently advised me that we should give you a proposal for our services based on 8 hrs per week at the facility to coordinate the work. As you can see, we are having to spend more than 8 hrs per week, at this early stage.

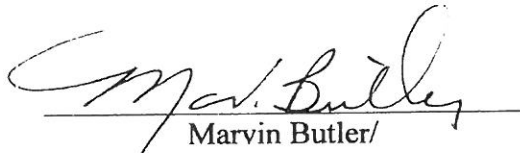

We propose that the fee for these services be invoiced at eighty dollars per hour, for the approximately 21 weeks that the contractor is allowed to complete the project.

As it has developed, we have had to spend more than eight hours per week, but it appears that the contractor will finish somewhat sooner than the time allotted.

We propose that the agreement would be not to exceed the fee based on eight hours per week for the estimated twenty one weeks of the contract. This total would come to \$13,440.00. We can then spend more time when the contractor is working the most. Invoicing would be on a monthly basis.

If this is agreeable to you, please indicate your acceptance of the above by signing below. If you have any questions, or require any further information, please feel free to call.

Accepted:

Marvin Butler/
Slidell Housing Authority
