RE: Parts and Labor Estimate Tangipahoa Solid Waste Facility Cell 12-Phase II

Dear Ricardo,

An estimate for parts and labor have been calculated for the subject project. The cost of materials is estimated @ \$20,997.30 excluding the cost of shipping and taxes. The labor is estimated @ \$28,500.00 excluding the cost of trenching and concrete work.

It will be required that the electrical contractor work with the general contractor to verify distances between headwalls and distance from headwall to trench. These distances will affect the length of pipe and cable required to complete the project. This calculation will be required prior to ordering these items.

Sincerely,

David Dammon  
Vice President
