Subject: RE: Towers Certificate Of Completion

Chuck,

Once all of the required inspections are completed we can then issue a Certificate of Completion. This has been my position since our meeting with you and Parish Officials in February of 2009. I don't recall "on a couple of occasions" informing you otherwise. We have been working very closely with you and the job contractors on this project and will continue to do so through its completion. Please let me know if there are any further concerns that require my attention or the attention of our inspectors.

Eric Giroir
Director of Building Safety
City of Slidell
985-646-4323

Subject: Towers Certificate Of Completion

Hello Eric, as you are aware we are getting close to finishing the repairs to the Towers Bldg. and through the construction phase's you had stated on a couple occasions that you would not sign off on the Certificate of Completion. And I never did ask why as I thought it was due to being an existing building.

But one of the check list items for the contractor is to get a Certificate of Completion from the City Of Slidell to close the job out. Please let me know what your position regarding this so I can tell the officials at the Parish.

Thank You
Chuck Dammon
