2 Ton Travel Crane Tank Farm

Dear Mr. Barcelona

It was a pleasure to discuss with you the tank farm travel crane installation located at the above referenced site.

Dammon Engineering will visually check and make an analysis for the 4 primary columns and the four primary column foundations along with the new connections between the new runway beams to the four primary columns.

Dammon Engineering will request that the owner provide as built drawings of the 4 primary column foundations along with the soil analysis for this area of concern.

We propose a total fee of \$3,500.00 (Three Thousand Five Hundred Dollars). This fee does not include cost of soils analysis or x-ray analysis. This proposal does not include any construction management. If it is requested it will be billed at the attached rate sheet.

We will bill at 100% after full analysis is completed.

Unless this offer is previously accepted, it will be withdrawn automatically at 5:00 p.m., 30 days from the date of issue.

We look forward to working with you on this project. Please indicate your acceptance of the above by signing below. If you have any questions, or require any further information, please feel free to call.

Sincerely,

*Chuck Dammon*

Chuck Dammon, Vice President
