Re: La Mason Charles
3801 St. Charles Ave., Unit #301
New Orleans, La.

Mr. Champagne,

Thank you for the opportunity to propose our services for the referenced project. Dammon Engineering is pleased to provide you with our proposal to furnish engineering services for the above project. We propose to design a wide flange beam and column support system to replace a structural wall.

Our fee for design services is \$1,200.00. We have previously billed you for the Structural Inspection for \$500. This amount would be deducted from the \$1,200.00 leaving a balance of \$700.00. The balance will be billed upon completion of the project. This fee does not include any municipality fees for re-filing drawings to incorporate the re-designed structure; it also does not include any other government agency fees or studies, which may be required.

We will provide you with 5 stamped copies of the drawing(s) upon completion of the project.

Sincerely,

David Dammon
Vice President
