RE: Brice Jones Office Building
Brownswitch Road
Slidell, LA

Dear Mr. Rabalais,

It was a pleasure to meet with you and discuss your project to design the referenced office facility, through Fire Marshal approval. As discussed, Dammon Engineering, Inc. will provide our Engineering services to work with you and design the project using your architectural drawing.

We propose a total fee of \$2.00/s.f., for this work. This fee includes our engineering stamp, the Fire Marshal review fee, as well as five sets of plans provided to you following the Fire Marshal's review and response. This fee does not include cost of soils analysis (if required) or government agency fees. This fee also does not include the cost of traffic, or other engineering studies, that may be required by St. Tammany Parish.

If selected, we request a deposit in the amount of \$3,000.00 to start the project, with the balance due following design completion and Fire Marshal approval.

Dammon Engineering carries \$1,000,000 Professional/General Liability Insurance, Auto Insurance and Workmen's Compensation Insurance. Unless this offer is previously accepted, it will be withdrawn automatically at 5:00 p.m., 30 days from the date of issue.

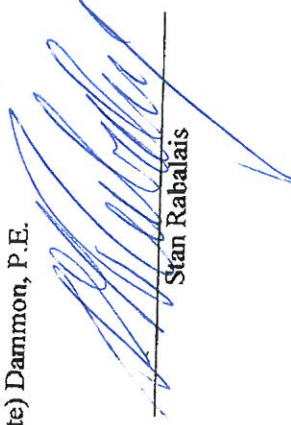

We look forward to working with you on this project. Please indicate your acceptance of the above by signing below. If you have any questions, or require any further information, please feel free to call.

Sincerely,

Emmett G. (Pete) Dammon, P.E.
