RE: The Chill Pad

Dear Mr. Martin,

Dammon Engineering is pleased to propose our architect and engineering services for the new snowball stand, "The Chill Pad," to be located in East Iberia Acres, Phase II, Lot 5 in New Iberia, Louisiana.

We propose to furnish the design for the approximately 640 s.f. facility including Mechanical, Electrical & Plumbing design, all in a package ready for your application for a building permit. We propose a total Architect and Engineering fee of \$3,500.00 (Three Thousand Five Hundred Dollars).

Please note that our fee includes the review fees for State Fire Marshal and IBC reviews, as well as five sets of plans provided to you following the Fire Marshal's review and response.

The above fee *does not* include the cost of soils analysis, drainage studies, wetlands determination, or other engineering studies that may be required by government agencies.

If selected, we require a deposit of \$1,750.00 upon contract acceptance. The balance will be due following the Fire Marshal's review and response, prior to release of the Fire Marshal reviewed plans and additional five sets.

Dammon Engineering carries \$1,000,000. Professional/General Liability Insurance and Workmen's Compensation Insurance.

We appreciate the opportunity to propose our services for this project. Please indicate your acceptance of the above, by signing below. If you have any questions, or require any further information, please feel free to call.

Sincerely,

Chuck Dammon, VP  
Dammon Engineering, Inc.
