Re: Quiznos Sub B-200619527
(name of project) (project no.)
17002 Jefferson Hwy Suite C B.R. LA 70817
(address)

We hereby request (Electrical; Gas) temporary approval of utility connection for project construction for 14 days (30 days maximum), for the following reason(s): finish testing mechanical - final preparations for the board of health

It is our understanding that permission for temporary approval of utility connection is only for the convenience of the contractor to finalize the building and that there shall be no occupancy by the owner or tenant.

We understand that all temporary approval of utility connection shall be discontinued by June 11, 2007 (date), unless all required final inspections have been obtained, a Certificate of Occupancy is issued by the Building Official, and permanent arrangements have been made with the utility company by the owner or occupant of subject building.

Should this request be granted, we agree to indemnify and hold the City of Baton Rouge, the Parish of East Baton Rouge and the utility company(s) harmless from any responsibility resulting from the allowance of temporary utilities.
