I. BUILDING CONSTRUCTION PERMIT FEES

A. COMMERCIAL CONSTRUCTION

The accepted bid price plus 10% will be used to determine the valuation of a commercial building. The schedule of permit fees for commercial construction is as follows:

- a. For Valuations up to \$100,000.00, the fee shall be \$3.00 per thousand dollars.
- b. For valuations from \$100,000.00, through \$500,000.00 the fee shall be \$2.00 per thousand above \$100,000.00.
- c. For valuations above \$500,000.00, the fee shall be \$1,100.00 plus \$1.50 per thousand dollars above \$500,000.00.
- d. Minimum permit fee will be \$20.00.

B. RESIDENTIAL CONSTRUCTION

A \$45.00 per square foot of living area cost will be applied to determine the valuation of a new residence. A \$12.00 per square foot of total area will be used to determine the valuation of a new storage-building, garage, or shed. The schedule of permit fees for residential construction is as follows:

- a. For valuations up to \$100,000.00, the fee shall be \$1.50 per thousand dollars.
- b. For valuations from \$100,000.00 through \$500,000.00, the fee shall be \$150.00 plus \$1.00 per thousand above \$100,000.00.
- c. For valuations above \$500,000.00, the fee shall be \$550.00 plus \$1.00 per thousand dollars above \$500,000.00.
- d. Minimum permit fee will be \$20.00.

****Note: Construction of any structure which has a valuation of \$2,500 or less will be exempt from the building regulations, provided the structure does not involve the three technical crafts in its construction.**
