Article 3. COMMENCEMENT, PROSECUTION AND COMPLETION: Time is of the essence of this Contract. Subcontractor shall commence work within two days after receipt by him of notice from the Contractor that the work is ready to begin and shall prosecute the work with promptness and diligence and in accordance with the Job Progress Schedule, if any; of Contractor and in such a manner that completion of the work shall not be delayed. Should Subcontractor fail or refuse to perform the work with such promptness and diligence for any reason, except for delays excused in writing by Contractor, then Contractor shall have the right to require Subcontractor to hire additional men, work additional hours or shifts, purchase additional material or take any other such action as may, in Contractor's sole discretion, be necessary to expedite the work. Should Subcontractor fail or refuse to take any of the actions so required, then Contractor shall, after 48 hours notice to Subcontractor, have the right to take the actions necessary to assure the timely completion of the work, including, without limitation, terminating this contract. In the event that Contractor chooses to terminate this contract as set forth herein, Contractor shall have the right to immediately enter upon the premises and take possession, of all materials, tools, and equipment thereon, and to finish the work and provide the materials therefore, either with its own employees or those of Subcontractor. Subcontractor agrees, at its own expense, to carefully protect, watch over, and care for all of his work, complete or otherwise, and all of his materials, supplies, tools and equipment at or near the project. Subcontractor agrees, without loss or damage to Contractor, to make good any loss or damage to any and all such work materials, supplies, tools and equipment from any cause whatsoever up to the final acceptance of the entire project by the Owner. The work performed by Subcontractor shall be in strict accordance with all applicable plans, general conditions, specifications and addenda listed under Article 1, as applicable thereto, and Subcontractor is bound by all provisions of these documents, and also all other documents to which the Contractor is bound, and to the same extent as Contractor. Any violations of this Article shall be cause for immediate termination of this contract and Contractor shall proceed with completion of the work in accordance with Article 3 above. The failure of Contractor to exercise its option to immediately terminate this contract as provided for herein shall not constitute a waiver of Subcontractor's default under the contract for violating this Article.
