

Formula Calculators

This CD-ROM contains interactive calculators for the formulas in this manual. To access the calculator for a formula, click on the title bar at the top of the formula box. The calculator will then appear in a new window. To use the calculator, enter the appropriate values in the labeled boxes for the formula variables, then click on the "Compute" button. The "Reset" button clears the calculator. Links to all of the calculators are provided at the bottom of each calculator window.
