ORDINANCE TO AMEND PARISH CODE OF ORDINANCES, CHAPTER 7, SECTION 7-050.00 DRAINAGE AND PAVING PLAN FOR COMMERCIAL, INDUSTRIAL AND INSTITUTIONAL DEVELOPMENTS, TO MAKE CHANGES TO STORMWATER RUNOFF RESTRICTIONS.

WHEREAS, proposed commercial, industrial and institutional developments are currently required to submit a drainage and paving plan to the parish for review and approval prior to the issuance of a building permit; and

WHEREAS, it is deemed necessary to amend the parish drainage regulations relative to storm water runoff reduction requirements for commercial, industrial and institutional developments.

THE PARISH OF ST. TAMMANY HEREBY ORDAINS to amend the Parish Code of Ordinances, Chapter 7, Section 7-050.00, Drainage and Paving Plan for Commercial, Industrial and Institutional Developments to make changes to stormwater runoff restrictions as follows, to-wit:

CHAPTER 7 DRAINAGE AND FLOOD CONTROL

Section 7-050.00 Drainage and Paving Plan (Commercial, Industrial and Institutional Developments)

The purpose and intent of this section is to require a drainage and paving plan to be stamped and certified by a Licensed Louisiana State Registered Engineer for construction of commercial, industrial and institutional developments, with the goal of improving pre-development runoff and reducing post-development runoff based on a minimum twenty-five (25) year ten (10) year storm event.

1. All commercial, industrial and institutional uses that require a building permit shall submit a drainage and paving plan with the permit application. Requirements are set forth below in Sec. 7-051.00. Said plan shall be forwarded to the Parish Engineer for review and approval before the issuance of a building permit.
2. It shall be the responsibility of the developer and design engineer to create a site development plan that will complement the drainage and paving plan utilizing site design criteria so as to result in the reduction of runoff from post-development.
3. The drainage and paving plan shall be stamped and certified by a Licensed Louisiana State Registered Engineer and shall meet the following criteria:
 - (i) Parcels 0-2 acres in size shall be required to reduce pre-development peak runoff by at least 10% for a twenty-five (25) year storm event, with on-site detention ponds optional.
 - (ii) Parcels 2-5 acres in size shall be required to reduce pre-development peak water runoff by at least 15% for a twenty-five (25) year storm event, with on-site detention ponds required.
 - (iii) Parcels 5 acres and larger shall meet all drainage requirements for Subdivisions as established by Subdivision Regulatory Ordinance No. 499, including a reduction of be required to reduce pre-development peak runoff by at least 25% for a one hundred (100) year storm event, with on-site detention ponds required.

4. A combination of detention methods may be utilized to meet the criteria as established above. Off-site detention facilities may be utilized if approved by the Parish Engineer.
5. Developments located within the boundaries of Gravity Drainage District No. 5 shall also submit their drainage and paving plans to the District at the time permit application is made to the Parish. A building permit shall not be issued until the Drainage District has had an opportunity to review and make comment on the proposed plans to the Parish Engineer. All costs associated with the review of the plans by the Parish and Drainage District shall be assessed to the developer. The Parish Engineer shall have final authority on approval of the permit application.
