

What is the Ideal Athletic Field Light Pole Mounting Heights?

The height of sports field lighting poles will depend on the type of sports field that you'll be illuminating. Here are the basics:

Baseball Fields – Pole height will depend on the level of play and the size of the field.

- Recreational and little league field light poles: 30-50 feet
- High school field light poles: 40-60 feet
- College field light poles: 40-80 feet
- Major League Baseball stadium light poles: 80-190 feet

American Football Fields:

- Recreational, high school & college light poles: 40-60 feet
- NFL stadium light poles: Up to 200 feet

Soccer Fields – Pole height will depend on the level of play and the size of the field.

- High school and college field light poles: 40-60 feet
- MLS stadium light poles: 100-200 feet
