

CHAPTER 59

CODES AND STANDARDS

THE Codes and Standards listed here represent practices, methods, or standards published by the organizations indicated. They are useful guides for the practicing engineer in determining test methods, ratings, performance requirements, and limits of HVAC&R equipment. Copies of the standards can be obtained from most of the organizations listed in the Publisher column, from Global Engineering Documents at [global.ihs.com](http://global.ihs.com), or from CSSINFO at [cssinfo.com](http://cssinfo.com). Addresses of the organizations are given at the end of the chapter. A comprehensive database with over 250,000 industry, government, and international standards is at [www.nssn.org](http://www.nssn.org).
