**RE: 2000 GPD COMMERCIAL SEWER SYSTEM TO BE INSTALLED AT
34212 ELKS' RD, SLIDELL, LA 70480**

To Whom It May Concern,

Plans and specifications for a **2000** GPD commercial sewer plant have been reviewed and found to be in substantial conformity with applicable provisions of the *Louisiana Administrative Code, Title 51: Public Health Sanitary Code*.

This permit is applicable **only** for the submitted commercial sewer plant design specifications reviewed by this office and only in so far as the application is in reference to the above proposed project.

This permit is issued with the stipulation that Slidell Lodge 2321 will own, operate, and maintain these facilities, properly secure the commercial treatment plant and post signs designed to discourage the entrance of unauthorized persons, secure appropriate DEQ permits for the plant and provide a certified operator for routine maintenance of the plant. The discharge will enter the existing ditch to Bayou Liberty.

This permit is automatically canceled if construction of the project has not been started within two (2) years after the date of this letter.

After completion of this project, the person or organization responsible for the design of the project shall send to this office a statement certifying that construction was done in accordance with the **final** plans reviewed by this office.

In the event that it is determined at some point in the future that a design error escaped our detection during our review of these plans and specifications, that oversight shall not relieve you, the applicant, of the responsibility for complete compliance with the requirements of the *Louisiana Administrative Code*, specifically including correcting the violations inadvertently overlooked.
