

Tangi LF - Pre-Treated Leachate Force Main

Write a description for your map.

Legend
Proposed Force Main Path

Once force-main leaves the landfill property, the force-main will be installed under the swales along the roadway and within the right-of-way. At Hwy 16 the force-main will be installed near the edge of the state's right-of-way

Existing Liftstation at the end of force-main.

Temporary location for off-loading water.

New liftstation @ oxidation pond
