RE: Residential Piling/Foundation Plan and Framing Design
Oak Ridge Subdivision
Cameron Parish, LA

Mr. McMath,

Dammon Engineering, Inc. is pleased to propose our Engineering and Design services for the referenced piling/foundation plan, consisting of a pile supported slab with a piling plan, CMU columns and design of the wood structure for six separate residential housing plans.

We propose a fee of \$2,250.00 (Two Thousand Two Hundred Fifty Dollars) for each different house layout. Please note that this fee is for the *foundation, columns and wood structure plans only*, and *does not include* the site plan or any other engineering services or plans other than as described above. This fee also *does not include* the cost of survey, topo, soils analysis, drainage studies, wetlands determination, or any engineering studies or government required studies and/or fees.

We look forward to working with you on this project. Please indicate your acceptance of the above by signing below. If you have any questions, or require any further information, please feel free to call.

Sincerely,

David Dammon,
