Re: The Park Hotel – 222 Loyola Ave – Pool/Spa Engineering for DHH Permit

Mr. Weber,

It was a pleasure to talk with you about your plans to construction a pool and multiple spas at the subject location. Dammon Engineering, Inc. is pleased to propose our Engineering services to provide you with plans for permitting with the Louisiana Department of Health. The plans provided by Terrell Fabacher Architects, LLC sheets A2.11 & A2.12, On sheet A2.12, the Loyola Ave side, a Pool PH5 which is 23ft x 15ft with a single infinity edge is shown, also a SPA which is 12ft x 7ft 8in is shown, then a small 6ft x 4ft SPAs is shown on a private deck for Unit PH1. On Sheet A2.11, the Rampart St side, 3 each 8 ft round SPA are shown where one of these 8ft round SPAs is shown on a private deck for Unit PH3 and the other two 8ft round SPAs are on a Public Deck. Sheet A2.11 also shows a small 6ft x 4ft SPA on a private deck for Unit PH2.

It is our opinion that the two 6ft x 4ft SPAs appear to be self-contained and small enough that should not be required to have a review by the Department of Health.

The larger SPAs and pool will need to be reviewed by the Department of Health.

We propose a fee of \$11,475.00 to design the larger SPAs and pool systems in accordance with the Louisiana Administrative Code Title 51 Part XXIV for permitting with the Louisiana Department of Health.

These designs do not include structural support design for the SPAs or pools.

We look forward to working with you on this project. Please indicate your acceptance of the above fee by signing below. If you have any questions, or require any further information, please feel free to call.

If you have any questions, please contact us.

Thank You,

David Dammon  
President
