RE: Administration Building Wiring Inspection
5825 Florida Blvd, Baton Rouge, Louisiana 70806

Dear Mr. Rudesill,

Dammon Engineering, Inc. is pleased to propose our Engineering services for inspection and recommendations of the existing Administration Building Power Wiring.

We propose to accomplish the inspection during 20 days of onsite inspection. An engineer and an assistant will inspect and document the existing conditions. An analysis of the existing conditions will then be reviewed for compliance with the 2008 National Electrical Code. This process will be based on our fee schedule, attached, but not to exceed a fee of \$20,000.

Dammon Engineering carries \$1,000,000 Professional/General Liability Insurance, and Workmen's Compensation Insurance.

By signing below you acknowledge that you are duly authorized to enter into and execute contracts/agreements on behalf of *LA Dept of Agriculture & Forestry*.

Please indicate your acceptance of the above by signing below. If you have any questions, or require any further information, please feel free to call.

Sincerely,

David Dammon, VP
