

We'll go to any depth for your galley needs

Is your galley up to speed?

Since 1875 the Loubat name has been a primary source of foodservice equipment and supplies in southern Louisiana. For over 30 years Loubat has been providing galley equipment for the local and international offshore industry. We continually invest in today's technology so we can provide our customers the modern galley that today's offshore worker deserves. Whether it is using AutoCAD or the most advanced electronic quotation/specification software, we can provide you with an efficient galley design for your specific needs.
