RE: Extension and Renovation to Existing Window Shop
New Sub-Assembly Building & Parking

Mr. Uhle,

Dammon Engineering is pleased to provide you with our proposed design fee percentage for the above referenced buildings, as discussed at our meeting on Wednesday, December 22, 2010. We propose a 3.95 percent fee, based on the proposed layouts discussed at the meeting.

Our fee includes city and state reviews. Our fee *does not include* the cost of soils analysis, drainage studies, traffic studies, wetlands determination, or other engineering studies that may be required by government agencies.

If selected, we ask for a deposit of \$8,000.00. We will then bill at approximately 25% design completion, 75% design completion and following 100% design completion. Once our proposal is accepted, a standard AIA contract, detailing all of the above, will be prepared and forwarded for your approval.

Dammon Engineering carries \$1,000,000. Professional/General Liability Insurance, Auto Insurance and Workmen's Compensation Insurance.

If you have any questions, or require additional information, please feel free to call.

Sincerely,

Emmett G. (Pete) Dammon, P.E.
